

Lost your
best cows
last season?

Want better
in-calf rates?

**Have more choices
at culling time...**

...with tighter calving spread

Early treatment of your non-cycling cows

really pays dividends!

If you want...

Contact your local vet to treat
your non-cycling cows now

Treat non-cyclers with NZ proven DIB-Synch plus eCG program
so cows are inseminated at the planned start of mating
