

B-Act®

Feed Additive premix Gut flora enhancing probiotic

COMPOSITION

Preparation of *Bacillus licheniformis* containing a minimum of 3.2×10^9 viable spores (CFU, Colony Forming Units) per gram, and calcium carbonate as carrier.

USAGE

Used as a direct fed microbial for poultry (broilers, turkeys, and layers) and pigs intended to provide a source of live, naturally occurring microorganisms ensuring stimulation of weight gain and improvement of feed conversion efficiency.

B-Act® is intended as a stabilized source of *Bacillus licheniformis* only.

DIRECTIONS FOR USE

To be used orally after fully mixing with compound feed of poultry and pigs at the rate of 500 g per ton of finished feed.

Recommended for use in diets of poultry and pigs during all phases of growth and development of animals.

MIXING INSTRUCTIONS

In order to ensure uniform homogenization with feed, it is recommended to mix the prescribed quantity of the product on stages in the following order: up to 10 kg feed; up to 100 kg feed; and up to 1000 kg feed.

SAFETY RECOMMENDATIONS

Avoid inhalation of dust. For user safety, wear breathing protection and safety glasses during handling.

WITHDRAWAL PERIOD

None.

STORAGE CONDITIONS

Store the product in a cold and dry place at temperatures up to 30°C.
