AgriHealth

Anti-inflammatories such as KetoMax 15% provide pain relief, control inflammation, and reduce swelling and fever. Reduced pain improves cow well-being, meaning a faster return to grazing. Controlling inflammation helps with a speedy recovery, leading to maximum productivity and continued retention in the herd.

KetoMax 15% is a Restricted Veterinary Medicine, ACVM Registration Number: A11031.

KetoMax 15%

High potency to reduce pain, fever and inflammation

Dose

for calves 1mL/50kg
