

# FACT SHEET

## Melovem 30

### WHAT IS MELOVEM 30?

Non-steroidal anti-inflammatory, analgesic and antipyretic injection for use in cattle and pigs containing meloxicam, 30mg/mL.

### WHAT IS MELOVEM 30 FOR?

Melovem 30 is for the treatment of pain, fever and inflammation in cattle and pigs.

### WHEN SHOULD YOU USE MELOVEM 30?

**Cows:** Melovem 30 should be used when cows or calves are showing signs of pain, inflammation (heat, redness, swelling) and / or have a high temperature. It is often used in conjunction with other treatments such as antibiotics, metabolic treatments or electrolytes.

#### Conditions where Melovem 30 is useful include:

- mastitis
- mammary oedema (swollen udder)
- respiratory conditions
- colic
- calf scours
- calf disbudding
- difficult calvings
- musculoskeletal conditions such as lameness and 'pinched' nerves

#### Pigs:

Conditions where Melovem 30 is useful include:

- Locomotor disorders
- Septicaemia
- Toxaemia

### HOW DO YOU USE MELOVEM 30?

Administer in combination with antibiotic therapy as appropriate.

**CATTLE:** Administer 1.0mL per 60kg body weight (0.5 mg meloxicam /kg) by subcutaneous or intravenous injection. For very young calves weighing less than 50kg a dose rate of 0.3mL per 20kg is appropriate. For single use only.

**PIGS:** Administer 1.0mL per 75kg bodyweight (0.4 mg meloxicam /kg) by intramuscular injection in the anterior neck. Can be repeated once after 24 hours if necessary.

### WITHHOLDING PERIOD

**Cattle:** Meat- 10 days  
Milk- 84 hours

**Pigs:** Meat- 3 days

### STORAGE

Store below 25°C in original container.  
Use within 28 days of opening

### PACK SIZES

Available in 100mL bottles.
