Ingredients	Wt%	CAS NUMBER.
Nicarbazin	100%	330-95-0

**Section 4. First Aid Measures**

Routes of Exposure:

If Swallowed	Wash out mouth with water. Get medical attention if you feel unwell.
If Inhaled	Remove person to fresh air. Allow person to assume most comfortable position for breathing. If breathing is difficult, seek medical attention. If not breathing, initiate cardiopulmonary resuscitation (CPR).
If in Eyes	Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation occurs or persists.
If on Skin	Wash with plenty of soap and water. Remove and wash contaminated clothing. If skin irritation occurs or persists: get medical advice/attention.

Precautions In case of hypersensitivity to the substance, avoid direct contact.

**Most important symptoms and effects, both acute and delayed symptoms:**

<b>Ingestion:</b>	No data available
<b>Inhalation:</b>	No data available
<b>Skin:</b>	No data available
<b>Eye:</b>	No data available

**Section 5. Fire Fighting Measures**

<b>Hazard Type</b>	No data available
<b>Hazards from combustion products</b>	No data available
<b>Suitable Extinguishing media</b>	Water spray, dry powder, carbon dioxide, or foam. Use extinguishing media suitable for surrounding fire.
<b>Precautions for firefighters and special protective clothing</b>	As with all fires, evacuate personnel to safe area. Fire fighters should use self-contained breathing equipment and protective clothing.
<b>HAZCHEM CODE</b>	<b>3Z</b>

**Section 6. Accidental Release Measures**

Wear protective gear as detailed in Section 8. Evacuate all unnecessary personnel.

Restrict access to contaminated area. Prevent further spillage, and prevent spilled material from flowing onto adjacent land or into waterways. Retrieve intact containers from site. Place damaged containers into containment devices. In case of spillage, contain the dry material by sweeping or vacuuming. Vacuuming may disperse dust if appropriate dust collection filter is not part of the vacuum. Be aware of potential for dust explosion when using electrical equipment. If vacuum is not available, lightly mist material and remove by sweeping or wet wiping. Clean the contaminated area with new polyurethane sponge, soaked in water. Place the spillage in a container for waste disposal. Avoid contamination of water courses or sewers.

Dispose of waste according to the applicable local and national regulations.

## Section 7. Handling and Storage

### Precautions for Handling:

- Use personal protective clothing and equipment as detailed in section 8
- Use local exhaust hood in the facility (recommended)

### Precautions for Storage:

- Store below 25°C in the original container, away from direct heat or sunlight.

## Section 8. Exposure Controls / Personal Protection

### WORKPLACE EXPOSURE STANDARDS (provided for guidance only)

Substance	TWA		STEL	
	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>

No ingredient has a known exposure standard.

Workplace Exposure Standard – Time Weighted Average (WES-TWA). The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short-Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- Minute period in the working day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply. Workplace Exposure Standards and Biological Exposure Indices APR 2022 13TH EDITION.

### Engineering Controls

Engineering controls should be used as the primary means to control exposures. General room ventilation is adequate unless the process generates dust, mist or fumes. Local exhaust hood and general exchange are recommended.

### Personal Protection Equipment

<b>Eyes</b>	Safety glasses or goggles
<b>Hands</b>	Wear impervious gloves if skin contact is possible
<b>Skin</b>	Use protective clothing (uniforms, lab coats, disposable coveralls, etc.) in both production and laboratory areas
<b>Respiratory</b>	Wear suitable respiratory equipment such as anti-dust mask (respirator) or local respiratory system
<b>General</b>	Do not eat, drink or smoke when using this product. Wash hands with soap and water before breaks and after work. Keep away from foodstuffs and beverages
