## SAFETY DATA SHEET

### Hostazym X MicroGranulate

#### Section 1: Identification of the Substance and Supplier

|                                  |   |
|----------------------------------|---|
| <b>Product Name:</b>             | Hostazym X MicroGranulate   |
| <b>ACVM Registration Number:</b> | Exempt  |
| <b>Recommended Use:</b>          | <i>An enzyme preparation of endo-1,4-beta-xylanase (IUB 3.2.1.8) produced by Trichoderma longibrachiatum having a minimum activity of 30,000 EPU/g.</i>   |
| <b>Company Details:</b>          | AgriHealth NZ Ltd<br>89 Grafton Road, Grafton, Auckland 1010,<br>New Zealand<br>Phone: +64 9 215 1199      Fax: +64 9 984 9455<br>Website: <a href="http://www.agrihealth.co.nz">www.agrihealth.co.nz</a> |
| <b>Emergency Telephone:</b>      | National Poisons Centre: 0800 764 766 (0800 POISON)<br>Fire Service, Ambulance: Dial 111  |

#### Section 2: Hazards Identification

Classified as not hazardous substance according to the criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

**Classification according to Commission Directive 2001/59/EC of 6 August 2001**

**Classification according to Regulation (EC) No 1272/2008 of December 2008**

**Hazard symbols:**

Harmful

**Risk phrases:**

May cause sensitization by inhalation.

**Signal words:**

Danger

**Hazard statements:**

May cause allergy or asthma symptoms or breathing difficulties if inhaled.

### **Section 3: Composition / Information on Ingredients**

#### **Chemical characterization**

Endo-1,4-beta xylanase (main enzymatic activity)

IUB Identification-number: 3.2.1.8

CAS-number: 9025-57-4

Each one gram of HOSTAZYM X MicroGranulate contains not less than 50 EPU of endo-1,4-beta xylanase.

### **Section 4: First Aid Measures**

- General information:** For advice contact the National Poisons Centre on 0800 POISON (0800 764 766) or a doctor.  
Change soaked clothing.  
Remove clothing where dust collected.
- After inhalation:** When spray fog inhaled, seek medical advice and show the physician the packing or the packing label.
- After contact with skin:** In case of contact with skin wash off with water.
- After contact with eyes:** In case of contact with eyes rinse immediately for at least 15 minutes with plenty of water.

**After ingestion:** No special measures necessary.  
Rinse mouth thoroughly with water.

**Workplace Facilities:** No special facilities are required.

**Notes for Medical Personnel:** Treat exposed patients symptomatically.

### **Section 5: Fire Fighting Measures**

**Type of hazard:** Non-flammable

**Extinguishing Media and Methods:** Water spray, foam

### **Section 6: Accidental Release Measures**

**Personal precautions:** Avoid dust formulation.  
Use personal protective clothing.

**Methods for cleaning up:** Clean equipment with a vacuum cleaner.  
Avoid raising dust.  
Clean contaminated floors and objects thoroughly,  
observing environmental regulations.  
When picked up, treat material as prescribed under  
heading "Disposal".

### **Section 7: Handling and Storage**

**Precautions for Safe Handling:** Avoid the formation and deposition of dust.  
Provide exhaust ventilation if dust is formed.  
Avoid formation of aerosols.

**Precautions for protection against fire and explosion**  
Take precautionary measures against electrostatic loading.  
Avoid formation of dust.  
Observe the general rules of industrial fire protection.

**Storage**  
Keep only in the original container.  
Keep container tightly closed, cool and dry.

**Approved Handlers:** Not required

## Section 8: Exposure Control / Personal Protection

### Personal protective equipment

#### General protective measures

Do not inhale dust/mist.

Do not inhale aerosols.

Avoid contact with eyes and skin.

#### Hygienic measures

Do not eat, drink or smoke during work time.

Keep away from foodstuffs and beverages.

After worktime and during work intervals the affected skin areas must be thoroughly cleaned.

#### Respiratory protection:

Particle filter half mask, filter P1

#### Hand protection:

Rubber gloves

#### Eye protection:

Safety glasses with side protective shield

#### Skin protection:

Protective clothing

## Section 9: Physical and Chemical Properties

Appearance:

Granules

Physical state:

Solid.

Color:

Beige

Boiling point:

No applicable information found

Melting point:

No applicable information found

Vapour pressure:

No applicable information found

Vapour density:

No applicable information found

## Section 10: Stability and Reactivity

Conditions to avoid:

Elevated temperatures and humidity and direct sunlight.

## Section 11: Toxicological Information

### Acute oral toxicity

- *Rats*, LD<sub>50</sub> > 2000 mg/kg of purified fermentation product/kg b.w.

### Sub-chronic repeated dose oral toxicity

- *Rats* 13-week-administration at levels up to 1000 mg/kg of purified fermentation product per day produced no signs of toxicity attributable to administration of xylanase.

### Genotoxicity including mutagenicity

The results from two mutagenicity tests performed with purified fermentation product were negative: Ames test with *Salmonella typhimurium* strains and In-vitro Mammalian Chromosomal Aberration Test.

### Other types of toxicity

Based on the experience that the strain is safe and the other toxicological studies did not raise any concern, no chronic oral toxicity, reproduction toxicity, teratogenicity studies were performed.

### Effects on the respiratory system

Enzymes are considered respiratory sensitizers.

### Effects on the eyes and skin

Enzymes are considered skin and eye sensitizers.

### Exposure assessment

There is no likely safety concern upon ingestion.

## Section 12: Environmental Information

The enzyme is degraded in the gastro-intestinal tract, and as it is of proteinaceous material any remaining material will further degrade in nature. No accumulation will take place.

## Section 13: Disposal Considerations

**Disposal Information:** Preferably dispose of the product by use. Otherwise dispose of product and packaging at an approved landfill or other approved facility.

**Section 14: Transport Information**

|                             |   |
|-----------------------------|---|
| <b>Land Transport</b>       | Not classified as dangerous goods for transport under NZ Standard 5433:2007 Transport of Dangerous Goods on Land.                                       |
| <b>Air Transport</b>        | Not classified as dangerous goods for transport under International Civil Aviation Organisation and International Air Transport Association regulations |
| <b>Sea Transport</b>        | Not classified as dangerous goods for transport under International Maritime Organisation regulations   |
| <b>UN Number</b>            | N/A   |
| <b>Proper Shipping Name</b> | N/A   |
| <b>DG Class</b>             | N/A   |
| <b>Subsidiary Risk</b>      | N/A   |
| <b>Packing Group</b>        | N/A   |
| <b>HAZCHEM Code</b>         | N/A   |
| <b>Marine Pollutant</b>     | No  |

**Section 15: Regulatory Information**

|                                |   |
|--------------------------------|---|
| <b>Regulatory Status:</b>      | Exempt from registration under the ACVM Act 1997. |
| <b>HSNO and ACVM Controls:</b> | N/A   |
| <b>List Exposure Limits:</b>   | None set  |

**Section 16: Other Information**

**Additional Information:** For product information see the AgriHealth website: [www.agrihealth.co.nz](http://www.agrihealth.co.nz)

Date of preparation: 21 August 2019  
Due for revision within 5 years.

The SDS summarises, at the date of issue, AgriHealth's best knowledge of the health and safety hazard information. Although reasonable care has been taken in the preparation of this document, AgriHealth NZ Ltd extend no warranties and make no representations as to the accuracy or completeness of the information contained therein, and assume no responsibility regarding the suitability of this information for the user's intended purposes or for the consequence of its use. AgriHealth NZ Ltd urges the recipient of this SDS to study it carefully to become aware of, and understand, the hazards associated with the product as well as determine the suitability of the information for the intended purpose.
