

Bio-D[®] 100

Feed Premix

Contains 25-hydroxyvitamin D₃

GUARANTEED ANALYSIS:

Each kilogram of Bio-D 100 contains minimum 348.5 mg/kg of 25-hydroxyvitamin D₃.

DIRECTIONS FOR USE:

Bio-D[®] 100 is used as an additive to compound feed of poultry (broilers, laying hens, heavy breeders, turkeys) and pigs as a vitamin D₃ supplement to aid in maintaining calcium homeostasis and general bone health.

ROUTE OF ADMINISTRATION AND INCLUSION RATE:

Bio-D[®] 100 is to be used orally after fully mixing with compound feeds of poultry and pigs at the following inclusion rates:

Species or category of animal	Milligrams of 25-hydroxyvitamin D ₃ per metric ton of complete feed	Recommended inclusion rate of Bio-D [®] 100, g/metric ton of feed
Broilers, laying hens and heavy breeders	34.8	100
Turkeys	46.0	130
Pigs	34.8	100

Do not exceed 68 mg of 25-hydroxyvitamin D₃ in feed.

Do not use simultaneously with drinking water containing 25-hydroxyvitamin D₃.

STORAGE:

Store in the original container protected from direct sunlight.
